

WE ARE BUILDING A BETTER BELCONNEN TOWN CENTRE

In conjunction with the ACT Government's Belconnen Town Centre improvements, Westfield Belconnen will be upgraded and will include the construction of a new retail precinct bus station at the western end of the centre on Lathlain Street.

The new bus precinct will include an undercover bus lounge for commuters, undercover seating areas with direct access into the centre, a link mall with shops to level 3, additional lighting, air-conditioning and modern facilities.

The multi million dollar redevelopment of Westfield Belconnen will facilitate improved public transport efficiencies in and around the centre, Provide shoppers with an expanded retail offering, enhance in-centre ambience and improve shopper access with more parking.

Estimated completion of this first stage of the project is November 2010, with all works completed by March 2011.
