ACME was founded in 1986 in Los Angeles and has been creating lovely handcrafted pieces of jewellery. Since 1997, ACME has been creating beautifully handcrafted and unique pens. ACME was the first company to do printed pens, which started a revolution in the pen industry. This allowed for endless new designs and colours, previously not possible. The ACME brand has been associated with quality and value and now presents the opportunity to own a limited edition ACME product. The Collection ONE range was created to present a large canvas for the designers to have freedom for exciting new designs. The results are breathtaking, with each of the five designs representing a unique style.
