

TESTIMONIALS – STYLING SESSIONS

Thank you so much for organizing such a spectacular styling experience for myself and my friends. From the moment we arrived, we were greeted so warmly by the staff at Westfield Doncaster. Throughout the day, they attended to our every wish. The Styling Suite itself is very impressive and welcoming. It provides a nice mix of fashion vibe and warmth.

Our personal stylist, Lucy was a joy to be with. She came full of useful tips and ideas. Fashion feedback is quite personal however Lucy's approach quickly put us at ease. Her point of differentiation was her 'holistic' approach to styling. Lucy discussed makeup, hair, color, lifestyle and taste. Her wealth of experience and expertise quickly became evident as we saw ourselves 'transformed' with such simple changes. As a group we went shopping in the Centre to put her recommendations into practice. Lucy supported our interests throughout and provided just the 'right' amount of guidance. I would love to experience a Styling Session again at Westfield Doncaster and highly recommend it to anyone from their late teens to those more mature in age. As friends our relationship and bond grew through the Styling experience.

Having never had the experience of consulting with a Stylist before, my excitement, anticipation and expectations were well exceeded from the moment we entered the Styling Suite at Westfield Doncaster. We were made to feel like celebrities in a warm, homely and inviting environment.

The knowledge, care and individual attention from our personal stylist further enhanced the experience and equipped us for our adventure into the Centre. The variety of stores in the centre made it all complete as we were given the opportunity to apply this knowledge and see first hand just what we had been taught in the Styling Suite. Thank you to everyone involved in making us feel so special – like we were the only people that mattered. It was a weekend I will never forget.

I was completely moved by the welcome we received from the team at Westfield Doncaster. They were happy and excited knowing what was ahead of us. If this was a glimpse of what was to come then I was absolutely in my element. We were introduced to Lucy, our stylist for the day and were blown away by her amazing personality and zest for what she does.

As there were three of us sharing in this experience all with different shapes, size and colour requirements, our stylist was eager and able to help all three of us. I will never forget that day and would definitely suggest this to anyone who is open to learning and understanding their bodies and what they should be looking for when buying clothes and accessories. Thank you again!

The day I spent with our personal stylist and three girlfriends was a fantastic experience. Her expert guidance allowed us to experiment with our purchases, confident with the knowledge she provided us about what best suited us individually. Experimenting with colours and make up along with some basic rules gave us an opportunity to buy some new outfits for the coming season. It was great fun to do a styling session with friends. If you want to add the WOW factor to your wardrobe it is a must!

Next time your men head out for a day at the footy, why not grab your girlfriends and do a personal styling session at the fabulous Styling Suite. Our stylist, Lucy sure had her work cut out with the four of us...short & curvy, tall & athletic, skinny & flat chested and a practical working mum. However through analysing our body shapes, colouring and lifestyles Lucy was able to unleash the glamour within us all! After an array of delightful food and a few champagnes later (served by the lovely Rose) it was off to the shops. Braced with our new found knowledge of "what to wear" and more importantly "what not to wear" it was shopping carnage. This was the best girl's day ever. Husbands beware!
